

# Cargo Insurance

How well are you protected when the unforeseen happens?  
Chances are, not as well as you might think.

## Carrier liability vs. All-risk insurance

Shipment example: 1 pallet, 1543 lbs (700 kg), \$25,000 value.

|                                      | <br><b>Ocean carrier</b> | <br><b>Air carrier</b> | <br><b>Trucker</b> |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| <b>With carrier liability only</b>   | \$500<br>per shipping unit<br><b>\$500</b>                                                                | 19 SDR<br>(\$26) per Kg<br><b>\$18,200</b>                                                               | \$0.50 per lb<br><b>\$771.50</b>                                                                      |
| <b>With all-risk cargo insurance</b> | <b>\$25,000</b>                                                                                           | <b>\$25,000</b>                                                                                          | <b>\$25,000</b>                                                                                       |
| <b>Insurance Costs</b>               | <b>\$275</b>                                                                                              | <b>\$137.50</b>                                                                                          | <b>\$55</b>                                                                                           |

Cargo Insurance from Jaguar Freight Services protects the full invoice value of your cargo, shipping costs, insurance costs, plus an additional 10%. Considering that your carrier or forwarder's liability is limited to a set dollar amount per package or pound, and that a container can be considered a package, regardless of the actual value of the loss, can you afford to go without Cargo Insurance?

### Cargo Insurance Fees

|             |       |
|-------------|-------|
| Air         | 0.50% |
| Ocean       | 1.00% |
| US Domestic | 0.20% |

Minimum \$40/shipment  
Based on CIF value plus 10%
